

Enhance your Team's Experience with Little League Apps

The Little League Scorekeeper and Live Game Viewer Compute Stats and Deliver Live Updates to Fans.

Little League has launched two mobile applications for scorekeeping and viewing live play-by-play updates. Each app is powered by the award-winning [GameChanger](#) technology.

[Little League Baseball and Softball Scorekeeper](#) (available on iPhone, iPod, iPad and Android) allows fans, coaches or scorekeepers record in-game action using the app's simple drag-and-drop interface.

[Little League Live Game Viewer](#) (available on iPhone and iPod) streams live play-by-play updates generated by the Scorekeeper app, so fans anywhere in the world can follow every pitch.

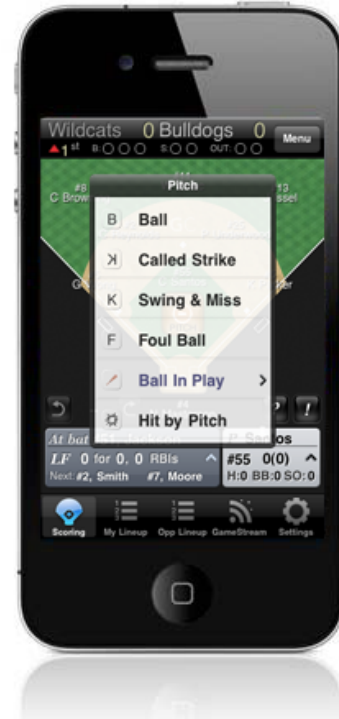

Get Started with 'Scorekeeper' and 'Viewer'

Any team representative can set up your team for free on the [GameChanger website](http://www.GameChanger.io), (www.GameChanger.io) then download the free [Little League Scorekeeper App](#) to access your team, lineup and schedule at the field.

During the game, a scorekeeper records all the action on the app's touch-screen: tapping simple menus for balls, strikes and hits, and dragging / dropping defensive players and baserunners.

As each play is easily recorded, the app beams live pitch-by-pitch updates and stats to the Internet, allowing parents, grandparents and other fans to follow the action on the web or on the [Live Game Viewer app](#).

With these apps, Little League coaches and scorekeepers never have to compute another stat or pitch count, and fans will never miss another play.

Set up your team for free:

2011 Little League® Rulebook App

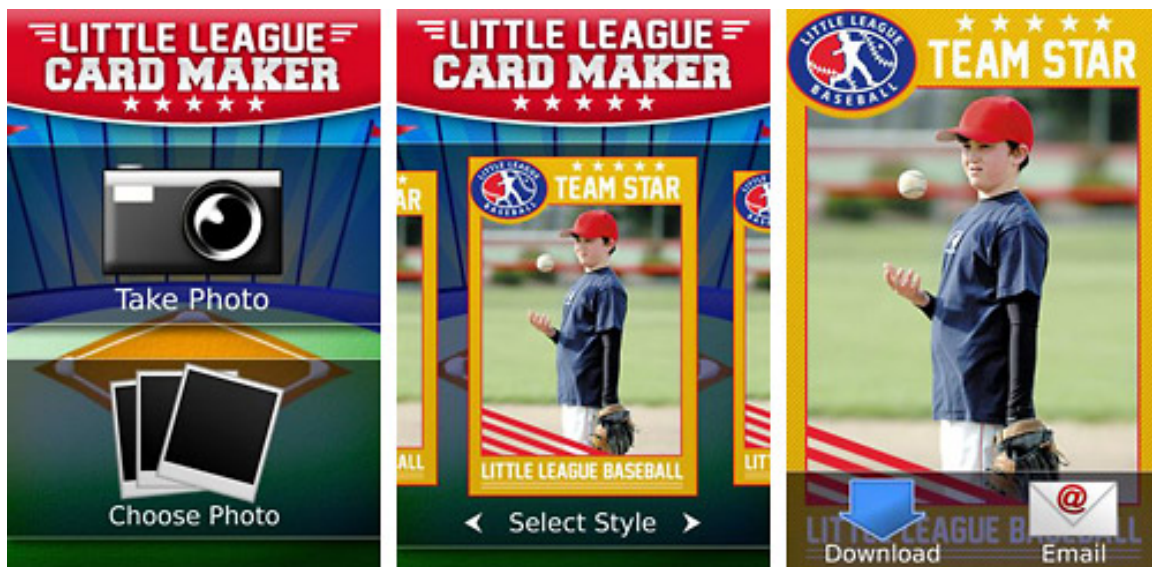

Get your very own set of mobile rulebooks for all of the Little League divisions, all in one convenient place! It includes all of the rules, complete with the diagrams, and is searchable for quick access to the rules that you need on the go. With the complete index at your fingertips, you can even save your most used pages in the bookmarks section for quick future reference.

With the licensed [2011 Little League® Rulebooks application](#) you can easily find rules and regulations from the comfort of your mobile device. Within the same application, rulebooks are available for Baseball, Softball, and Challenger divisions.

Little League Cardmaker Released for iPhone and Android

Little League Cardmaker is a fun way to make custom baseball cards for your favorite Little League stars! Use your iPhone or Android phone to take his/her photo, choose a division, pick from one of many Little League picture frames and create your trading card! Once you've snapped a great shot and created a winning card, you can email it to your friends and loved ones, and post it on Facebook! Templates are available for Baseball, Softball, and Challenger divisions.
